Final Notice—Get it on your calendar!

7th Biennial Conference on University Education in Natural Resources
Oregon State University
Corvallis, Oregon

Teaching & Learning in Natural Resources

A forum for university-based educators to share strategies and techniques used to educate the entire spectrum of audiences for whom they offer educational programs.

Primary audiences:

- College and university faculty and administrators from all natural resource disciplines interested in curricular issues and teaching innovations.
- Agency and organizational partners who both receive and help universities design and deliver educational programs for audiences ranging from K-12 teachers and students to scientists and professional resource managers.
- Graduate and undergraduate students interested in natural resources education.

Potential topics include:

- Partnering with agencies and organizations to prepare graduates for the world of work.
- Developing skills in collaboration, teamwork, and conflict resolution.
- Recruiting and retaining students in forestry and natural resources.
- Increasing diversity/inclusion in natural resource fields.
- Promotion and tenure strategies to reward teaching.
- Distance learning: making it effective and efficient.
- Fostering critical thinking and problem solving.
- Experiential and service learning.
- Innovative outreach education.
- Developing communication skills.
- Free-choice learning.

The conference will be hosted by the Colleges of Forestry and Agricultural Sciences at Oregon State University. It will be held on campus, in classrooms and facilities used by OSU students. Pre-conference educational field trips are planned for March 13th.

Oregon State University (OSU) is a Land, Sea, Space, and Sun Grant university that is known throughout the world for the breadth, depth, and quality of its educational programs in natural resources. “Managing natural resources that contribute to Oregon’s quality of life, and growing and sustaining natural resources-based industries” is one of five key interdisciplinary themes that guide the university.

OSU is located in the Willamette Valley of western Oregon in close proximity to the Cascade Mountains and the Pacific Ocean.

Please watch our website for details on optional Field Tours, a detailed program, and registration.
